ORGANISED BY ENTAN ([HTTPS://ENTAN.ORG/](https://entan.org/)):

ENTAN – is a COST Action aimed at examining the concept of non-territorial autonomy (NTA). ENTAN particularly focuses on NTA arrangements for reducing inter-ethnic tensions within a state and on the accommodation of the needs of different communities while preventing calls to separate statehood. The main objective is to investigate the existing NTA mechanisms and policies and to develop new modalities for the accommodation of differences in the context of growing challenges stemming from globalisation, regionalisation and European supranational integration. The network fosters interdisciplinary and multidisciplinary group work, and provides for training and empowerment of young researchers, academic conferences and publications, as well as for the dissemination of results to policy makers, civil society organisations and communities.

Researchers at different ranks are eligible to apply to the training school, including graduate and PhD students, postdoctoral researchers and young career investigators.
